MODELS GM-600G & GM-3KG

- LCD display with automatic backlight
- Metric/Imperial and parts counting units of measurement
- **MODEL GM3KG:** self calibration with memory
- Includes batteries

Capacity: **GM-600G:** 600g; **GM-3KG:** 3000g
 Resolution: **GM-600G:** 0.1g; **GM-3KG:** 1g
 Power Supply: 6 x 1.5V "AAA" batteries
 Platform Dimensions: 195 x 150 x 40mm
 Cabinet Dimensions: 150 x 145 x 48mm

Scale

MODEL GM5000

- 176 oz/5000g measuring capacity with 0.1 oz/1g resolution
- Dual range, gram/ounces, selected by internal slide switch
- Single push button control
- High precision load cell transducer
- Full capacity tare capability
- Battery or 9VDC adapter power supply
- Stainless steel platform
- RS232 output

Scale

MODEL GB-100KG

- Bench platform scale with separate LED display and load cell transducer
- 100 kg x 0.05 kg, 220 lb x 0.1 lb
- Platform size: 450mm x 340mm
- 6 x 1.5V UM-3 batteries (included) or AC adapter

Tally Counter

MODELS 7655 & 8-005-1

- Sturdy 4-figure hand-operated reset counter
- Heavy gauge steel case and base are chrome plated to resist damage from perspiration
- Hand tally features push button actuator and handy thumb ring for easy operation
- Recommended for applications where operator must be mobile, such as checking meeting attendance, taking warehouse inventories, etc.
- Stand tally features special mounting base designed for desk, bench or clipboard mounting
- Recommended for fixed applications such as assembly line parts counting, traffic surveys, etc.

7655 Hand Tally Counter
8-005-1 Stand Tally Counter

Ratchet Counter

MODEL 2012-5

- Reliable, plastic counters for all purposes
- Operated by stroke (ratchet) drive
- Stroke counter is ideal for use on most types of production counting equipment
- Five-figure register with knob reset
- Counts with one 45° adjustable lever movement (spindle on right side)
- Supplied with connecting spring

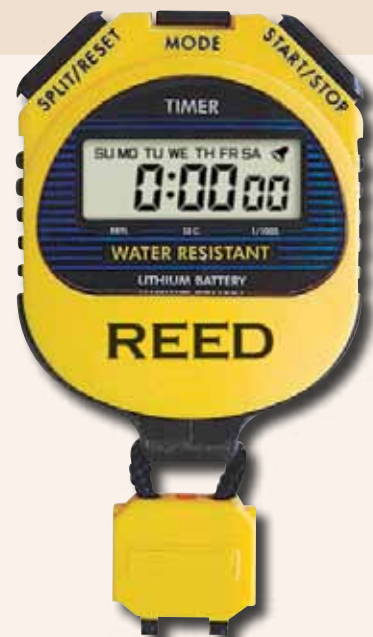

2012-5 Ratchet Counter

Stop Watch

MODEL SW600

- High contrast digital display
- Records real time and split times
- 1/100th second resolution
- Displays hour, minute, second, date and day of the week
- Alarm and snooze functions
- Shock and water resistant case
- 48" nylon lanyard
- Includes battery

NEW!

SW600 Digital Stop Watch

Magnifier

MODEL 7557

- Handheld, 6X power magnifier
- Built-in light source
- 1" diameter viewing lens
- Perfect for quick inspection jobs or map reading

7557

Illuminated Magnifier

Magnifier

MODELS 7552 & 7553

- Self-illuminated for your convenience
- Adjustable focus wheel
- Choice of 30X (7552) or 50X (7553) magnification

7552

Illuminated Magnifier, 30X

7553

Illuminated Magnifier, 50X

Magnifier

MODELS 7549 & 7550

- Folding pocket magnifier, ideal for counting threads and magnifying surface finishes
- Available in 5X (7549) and 8X (7550) magnification

7549

1" Linen Tester, 5X

7550

7/8" Linen Tester, 8X

Magnifier

MODEL 7534

- General purpose magnifier folds away in case when not in use to protect from scratching
- Case serves as easy-to-grip handle when in use
- One lens of 4X magnification and one lens of 6X magnification; combining lenses gives you 10X magnification

7534

Pocket Magnifier

Ultrasonic Leak Detector

MODEL GS-5800

- Ultrasonic leak detector ideal for locating leaks generated by pressure, vacuum, water, gas or air
- Complete with Ultrasonic Leakage Detector, Ultrasonic Transmitter, rubber bottle plug with plastic tubing, 1/2" PVC pipe assembly for attaching to top of detector, 9V battery, and soft carrying case
- Leakage level is displayed by an LED bargraph and audible signal
- Ultrasonic Transmitter sends a 40 kHz signal which, when detected by the meter, indicates the location and magnitude of a leak
- Crystal time and oscillator circuit

Detector Frequency Response:

20 to 100 kHz

Transmitter Frequency: 40 kHz

Dimensions: Detector: 10 x 2.8 x 1.1"
(225 x 70 x 28mm)

Weight: 2 lb 14 oz

Ultrasonic Leak Detector

GS-400

Ultrasonic Transmitter

Microwave Leakage Detector

MODEL ST-2G

- Detects very low levels of microwave leakage
- Audible (beep) and visual (flashing red light) alarm signals
- Highly visible 5-digit LCD with backlight
- Built-in memory recalls maximum and minimum values, as well as last value stored
- Includes soft carrying case and batteries

Measuring Range: 0 to 9.99 mW/cm²

Alarm Level: 5.0 mW/cm²

Power Supply: Single 9V battery

Dimensions: 160 x 60 x 42mm

Weight: 151g
